

Board Seam Tape

99600

2" WIDTH

Leaves a smooth surface for spreading mortar, thinset or mastic

STRONG

Resists tears and will not shrink for reliable use

ALKALINE AND MOISTURE RESISTANT

For great performance in high humidity environments and to prevent discoloration

MESH CONSTRUCTION

Provides strength for lasting results

SELF-ADHESIVE TAPE FOR SEAMING MOST TYPES OF CEMENT BACKERBOARD, DRYWALL AND TILE UNDERLAYMENT

QEP® Backer Board Seam Tape Roll joins backer boards before applying thinsets or adhesives. This tape may be used for seaming most types of cement backer board. Reinforced with fiberglass mesh, this roll is strong enough to be used in most general installations. Reduce taping time with this self adhering roll.
