Tile Installation Products

A NEW PERSPECTIVE ON TILE INSTALLATION PRODUCTS

PROVA® Tile Installation Products by M-D PRO® offers a broad assortment of quality products with innovative features that provide simplified and flexible installation options to all who use them. For over 15 years, the PROVA® product line has been providing professionals and consumers with a reliable alternative they can count on. With our customer-centric approach and direct relationships with the professional installation segment, the PROVA® selection is intended to cover the most common applications we see in the marketplace today. Our comprehensive line includes:

- **Modular shower systems** – pans, extensions, and components designed to work together, providing choice and flexibility in creating any shower base design desired!
- **Waterproofing systems** – waterproofing membrane and accessories that are ICC-ES certified and approved for use in intermittent-use steam showers. Waterproofing tile backer board that is can be used in a variety of ways for building and substrate purposes. It provides superior strength, rigidity, as well as thermal resistance to help with reduction of thermal transfer and impact sounds.
- **Drain systems** – with patented mortar adhesion technology guaranteeing a waterproof and reliable bond between the drain and shower pan
- **Tile underlayment systems** – with lightweight functionality, "Extra Heavy" ratings, superior strength, and workability
- **Tile trims, nosing and multi-purpose profiles** – available in anodized aluminum, stainless steel, and PVC in today's most popular finishes. Offerings available for both commercial and residential projects.

At M-D PRO®, we pride ourselves on our personal, customer-first approach to business and our proactive service reputation. We also take this approach with product innovation. PROVA® Tile Installation Products are designed, engineered, and developed in North America and with our North American end users in mind. We ensure that all products meet North American flooring and building standards and we are committed to innovation that continues to simplify installation processes for our users and provide product selection value to our customers.

For any questions or technical support pertaining to PROVA® Tile Installation Products, please contact our customer service department. Our team of specialists will be happy to assist you. Also, be sure to follow us on social media for installation tips and to stay up to date on new PROVA® product innovations!

M-D PRO® a division of a 100-year-old business, M-D® Building Products, provides the broadest range of Floor Covering & Building Accessories in the industry! Our core business is a traditional line of aluminum and vinyl extruded floor transitional moldings that aid in a spectrum of installation challenges. M-D PRO® has remained committed to providing customers and end user with innovative product lines that include PROVA® Tile Installation Products, M-D Tools, TOWER Sealants. These growing product lines continue to complement M-D PRO® Flooring Accessories, our core line of trims for carpet, ceramic, laminate, vinyl, resilient and hardwood floors.

PROVA®

SHOWER SYSTEMS & COMPONENTS

PROVA® offers a complete line of modular shower systems and components designed to work together to produce watertight, failure-free shower assemblies! When used collectively, PROVA® pans, extensions, and drains offer an easy, efficient way to install a shower base that will always have an even slope and can be customized to meet the size and shape of your choosing. All offerings provide protection against water and vapor penetration and are resistant to mold and mildew buildup over years of use. Step into an unfinished bathroom with PROVA® products and discover how the components come together to simplify the installation process!

PROVA-SHOWER SYSTEM®

PROVA-SHOWER SYSTEM® — Pack Size: 1 Kit

A complete, easy-to-install waterproofing system for maintenance-free tiled showers

- Contains all the components required to build a fully bonded, water-tight shower assembly
- Protects wall cavities against water and vapor penetration
- Modular sloped pan system provides flexibility in installation and replaces the need for a mortar base
- PROVA-MAT® waterproofing membrane is certified by ICC-ES and can be used in steam showers when installed over PROVA-BOARD PLUS®

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

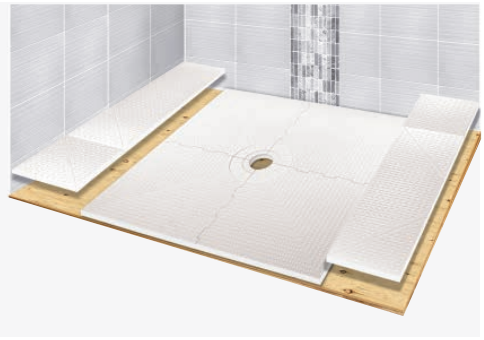
PROVA PAN®

PROVA PAN® — Pack Size: 1 pc

PROVA PAN® is a prefabricated, modular sloped pan that is perforated into sections to provide installation flexibility. The pan replaces the need for a mortar base and can be cut down as needed.

PROVA-MAT PAN LINER® included, PROVA DRAIN® sold separately.

PART NO.	TOTAL PAN SIZE	THICKNESS	DRAIN PLACEMENT	MATERIAL
TT8008PAN04	48" x 48" (122 cm x 122 cm)	1-5/8" (4.1 cm)	Center	Expanded polystyrene
TT8013PAN02	32" x 60" (81 cm x 152 cm)	1-5/8" (4.1 cm)	Offset, 10" O.C.	Expanded polystyrene
TT8113PAN02	32" x 60" (81 cm x 152 cm)	1-5/8" (4.1 cm)	Center	Expanded polystyrene



PROVA UNIVERSAL EXTENSION KIT®

PROVA UNIVERSAL EXTENSION KIT® — Pack Size: 4 pcs/box

PROVA UNIVERSAL EXTENSION KIT® can be used to extend a PROVA PAN® base to any desired size. Perforated corner edges are easy to cut and allow for flexibility in shower base layouts. Design possibilities are endless when using multiple extension kits!

PART NO.	SIZE PER EXTENSION	THICKNESS	MATERIAL
TT8011EXT04	12" x 36" (30 cm x 91 cm)	1-5/8" (4.1 cm)	Expanded polystyrene

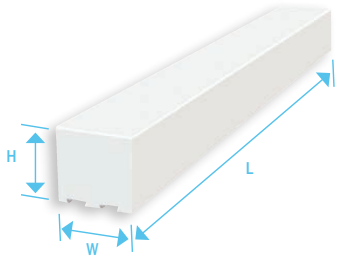
Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA CURB®

PROVA CURB® Pack Size: 1 pc

PROVA CURB® is a low-profile prefabricated shower curb that can be installed with any shower base. It can be easily waterproofed using PROVA-MAT® waterproofing membrane, and it features a dovetail recess for better mortar adhesion.

PART NO.	SIZE (W x H x L)	MATERIAL
TT8015CRB48	4-1/2" x 4" x 48" (11 cm x 10 cm x 122 cm)	Expanded polystyrene
TT8012CRB60	4-1/2" x 4" x 60" (11 cm x 10 cm x 152 cm)	Expanded polystyrene



Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA-BOND™
Surface Treatment

Waterproof mortar adhesion technology
Featured only with PROVA DRAIN®

PROVA DRAIN®

PROVA DRAIN® — Pack Size: 1 pc

PROVA DRAIN® is an easy-to-install drain system that can be used with PROVA PAN®, PROVA PAN-MULTI®, and mortar bases. The drain is coated with PROVA-BOND™ surface treatment technology, which provides a waterproof, strong, and reliable bond between the drain flange, mortar, and shower pan. Each drain includes a 304 stainless steel drain grate, along with a grate housing that includes a height-adjustment collar and ring for adpating to multiple tile thicknesses.

Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

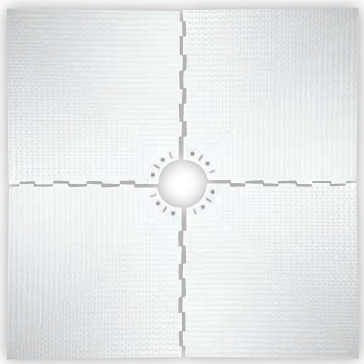
PROVA PAN-MULTI®
PROVA PAN-MULTI EXTENSION KIT®

PROVA PAN-MULTI®



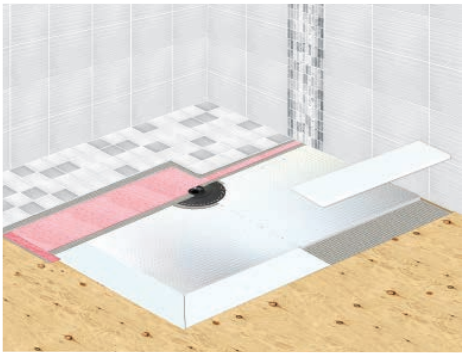
PROVA PAN-MULTI® — Pack Size: 1 pc

PROVA PAN-MULTI® is a one-pan solution for curbed or curbless shower installations. Choosing a curbless application is ideal for accessible showers and open-concept aesthetics. The prefabricated sloped pan replaces the need for a mortar base, and its perforated sections make it easy to install.

***PROVA-MAT PAN LINER® included, PROVA DRAIN® sold separately.**

PART NO.	TOTAL PAN SIZE	THICKNESS	DRAIN PLACEMENT	MATERIAL
TT8114PAN05	60" x 60" (152 cm x 152 cm)	7/8" (2.2 cm)	Center	Expanded polystyrene

PROVA PAN-MULTI EXTENSION KIT®



PROVA PAN-MULTI EXTENSION KIT® — Pack Size: 8 pcs/box

PROVA PAN-MULTI EXTENSION KIT® is designed to be installed with PROVA PAN-MULTI® to create large square or rectangular shower bases. One kit can extend a shower base up to 84" x 84" (213 cm x 213 cm) or any size in between. Use multiple kits to achieve your shower design of choice!

***PROVA PAN-MULTI sold separately.**

PART NO.	SIZE PER EXTENSION	THICKNESS	MATERIAL
TT8115EXT04	48" x 12" (122 cm x 30 cm)	1/8" (3.2 mm) to 3/8" (9.5 mm)	Expanded polystyrene

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA LINEAR DRAIN®
PROVA-MAT®
PROVA LINEAR PAN®
PROVA LINEAR PAN EXTENSION®

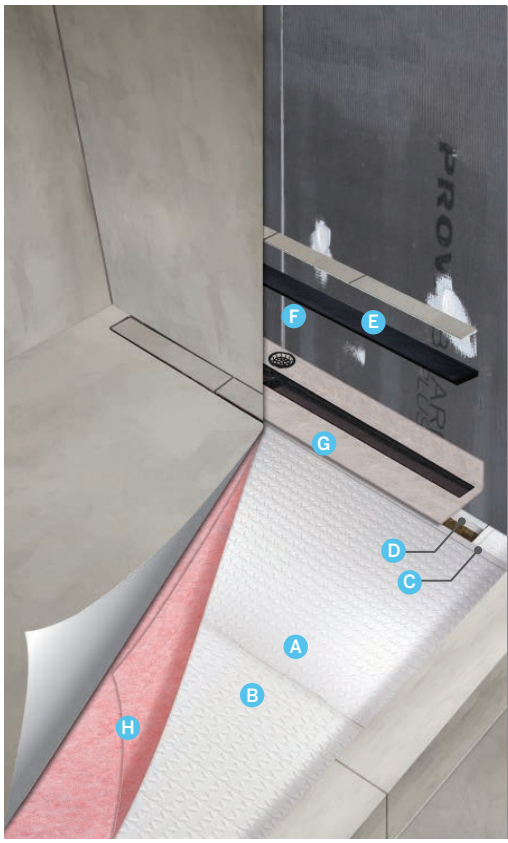
PROVA LINEAR®

PROVA LINEAR®

The PROVA LINEAR® system for tiled showers features a unique modular pan and extension structure that allows for complete versatility when building out any desired shower base size and drain placements. The system can be used with either PROVA BOARD® PLUS tile backer or PROVA-MAT® membrane to waterproof shower walls.

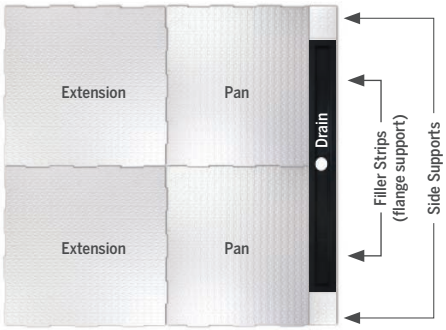
A	PROVA LINEAR PAN®		B	PROVA LINEAR PAN EXTENSION®	
C	Side Supports		D	Filler Strips (for End Drain flange support)	
E	TILE-IN-TOP (Tiling guide included. Tiles not included.)		F	Hair Catcher	
G	Drain Body with pre-bonded PROVA-MAT® membrane		H	PROVA-MAT® (sold separately)	

Stainless Steel Grate (sold separately)

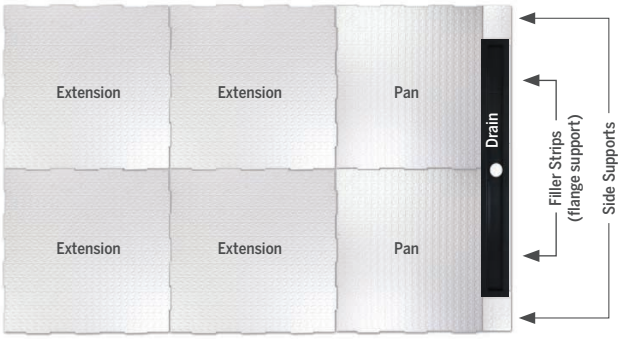


DESIGN POSSIBILITES ARE ENDLESS WITH THE PROVA LINEAR® MODULAR PAN & EXTENSION SYSTEM:

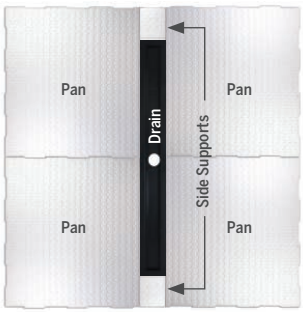
END DRAIN - 4' X 4' (122 cm x 122 cm)



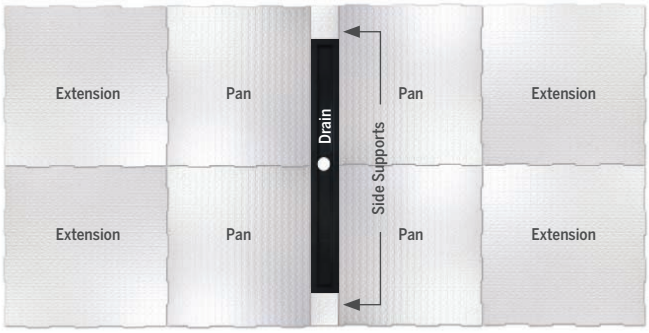
END DRAIN WITH PROVA LINEAR PAN EXTENSION® KIT - 4' X 6' (122 cm x 183 cm)



CENTER DRAIN - 4' X 4' (122 cm x 122 cm)



CENTER DRAIN WITH PROVA LINEAR PAN EXTENSION® KIT - 4' X 8' (122 cm x 244 cm)



AND MANY MORE!

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

*Tiles shown in tile-in-top inclusion are not included

PROVA LINEAR DRAIN®

PROVA LINEAR DRAIN® — Pack Size: 1 kit

The PROVA LINEAR DRAIN® is available in three popular sizes. The drain body is coated with PROVA-BOND™ surface treatment technology for ultimate mortar adhesion. Pre-bonded PROVA-MAT® membrane is included on the drain flange, providing quick and easy waterproofing. The tile-in-top inclusion provides the aesthetic of a fully tiled shower floor without disrupting drainage. Hair catcher and tiling guide also included.

PART NO.	SIZE	ROUGH-IN SIZE	DRAIN MATERIAL
TT8900TNT24	24" (61 cm)	26" (66 cm)	ABS
TT8900TNT36	36" (91 cm)	38" (97 cm)	ABS
TT8900TNT42	42" (107 cm)	44" (112 cm)	ABS

PROVA LINEAR DRAIN GRATE®

PROVA LINEAR DRAIN® GRATE — Pack Size: 1 pc

The PROVA LINEAR DRAIN® GRATE is a durable, rust-resistant, and stylish 304 stainless steel grate option for any tiled shower. It can be used to replace the tile-in-top inclusion of the PROVA LINEAR DRAIN® kit. Includes drain grate and height adapting clips.

PART NO.	SIZE	MATERIAL
TT8910STS24	24" (61 cm)	304 Stainless steel
TT8910STS36	36" (91 cm)	304 Stainless steel
TT8910STS42	42" (107 cm)	304 Stainless steel

PROVA LINEAR PAN®

PROVA LINEAR PAN® — Pack Size: 1 kit

PROVA LINEAR PAN® is a pre-sloped, waterproof pan that can be used to build a linear shower base. Prefabricated sloped pan replaces the need for a mortar base. Includes 2 pieces of PROVA LINEAR PAN®, 2 side supports, and 2 filler strips.

PART NO.	SIZE PER PAN	THICKNESS	MATERIAL
TT8901PAN02	22.5" x 24" (57 cm x 61 cm)	1-5/8" (4.1 cm)	Expanded polystyrene

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

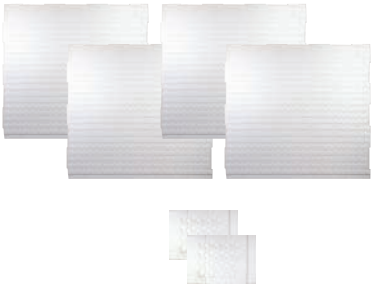
PROVA LINEAR PAN EXTENSION®

PROVA LINEAR PAN EXTENSION® — Pack Size: 1 kit

PROVA LINEAR PAN EXTENSION® is a pre-sloped, waterproof pan that can be used to extend the size of a linear shower base by adding them to existing linear pan pieces. Includes 2 pieces of PROVA LINEAR PAN EXTENSION®.

PART NO.	SIZE PER EXTENSION	THICKNESS	MATERIAL
TT8902EXT02	24" x 24" (61 cm x 61 cm)	1-5/8" to 2-1/8" (4.1 cm to 5.4 cm)	Expanded polystyrene

PROVA LINEAR PAN KIT® - CENTER DRAIN



PROVA LINEAR PAN KIT® - CENTER DRAIN — Pack Size: 1 kit

The PROVA LINEAR PAN KIT® for **center drain applications** features a unique modular pan system that is easy to install with its pre-sloped base and perforated edges. Kit includes 4 pieces of PROVA LINEAR PAN® and 2 side supports which can build up to a 48" x 48" linear shower base.

PART NO.	TOTAL PAN SIZE	THICKNESS	MATERIAL
TT8903CTR04	48" x 48" (122 cm x 122 cm)	1-5/8" (4.1 cm)	Expanded polystyrene

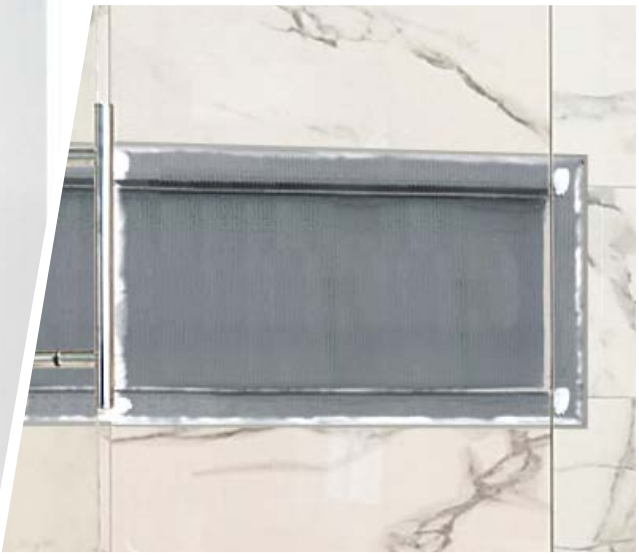
PROVA LINEAR PAN KIT® - END DRAIN

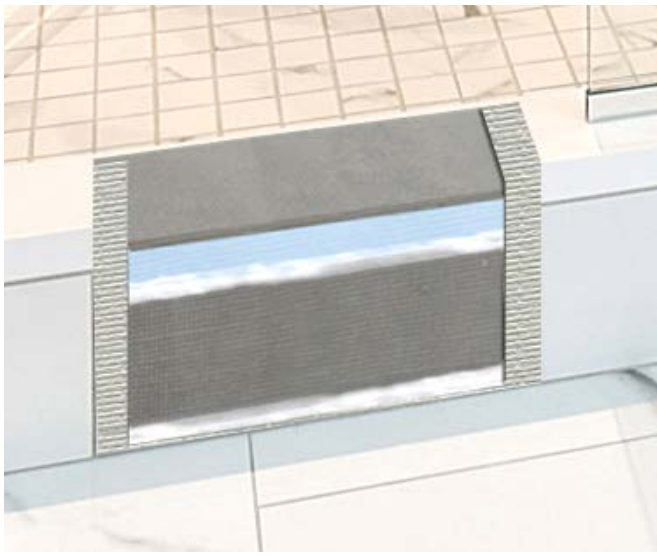
PROVA LINEAR PAN KIT® - END DRAIN — Pack Size: 1 kit

The PROVA LINEAR PAN KIT® for **end drain applications** features a unique modular pan and extension system that is easy to install with its pre-sloped base and perforated edges. Kit includes 2 pieces of PROVA LINEAR PAN®, 2 side supports, 2 filler strips and 2 pieces of PROVA LINEAR PAN EXTENSION® which can build up to a 48" x 48" linear shower base.

PART NO.	TOTAL PAN SIZE	THICKNESS	MATERIAL
TT8903END02	48" x 48" (122 cm x 122 cm)	1-5/8" (4.1 cm)	Expanded polystyrene

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

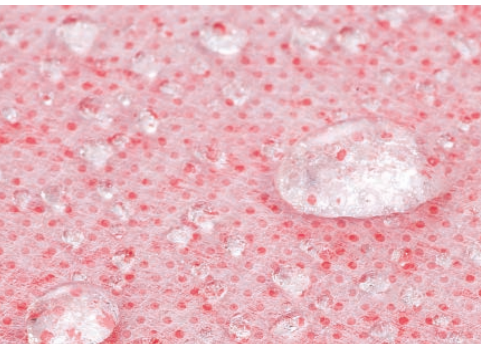




PROVA®

WATERPROOFING

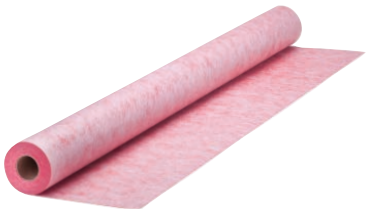
Designed with the installer in mind, PROVA® makes waterproofing easier than ever before! There are two options available: PROVA-MAT® membrane and PROVA BOARD® PLUS tile backer. Both offerings are ideal for waterproofing a variety of different areas, such as showers, steam showers/saunas, countertops, backsplashes and more. Both options are lightweight and easy to install, protect against the growth of mold and mildew and are designed to ensure that you can produce an evenly waterproofed surface to tile every time!



PROVA-MAT®

PROVA-MAT® — Pack Size: 1 roll

PROVA-MAT® is a low perm waterproof membrane that is ideal for use in wet areas, such as showers, bathrooms, laundry rooms, backsplashes, countertops and more. The easy-to-install membrane resists mold and mildew growth and provides great resistance to water vapor transmission. When installed over PROVA BOARD® PLUS, the waterproofing properties of the membrane and the thermal resistance offered by the backer board come together to produce the ultimate waterproofing solution for steam showers and saunas!



PART NO.	SIZE	COVERAGE AREA	THICKNESS	MATERIAL
TT8002RED05R	16' x 3.28' (5 m x 1 m)	54 sq. ft. (5 sq. m)	16.93 mil (0.43 mm)	Polypropylene
TT8002RED10R	33' x 3.28' (10 m x 1 m)	108 sq. ft. (10 sq. m)	16.93 mil (0.43 mm)	Polypropylene
TT8002RED25R	82' x 3.28' (25 m x 1 m)	269 sq. ft. (25 sq. m)	16.93 mil (0.43 mm)	Polypropylene

PROVA JOINT®

PROVA JOINT® — Pack Size: 1 roll

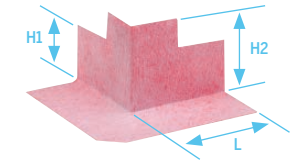
PROVA JOINT® waterproofing strip seals seams and transitions where water could penetrate. The joint strip also resists mold and mildew growth.

PART NO.	SIZE	THICKNESS	MATERIAL
TT8001RED25R	25' x 5" (7.62 m x 12.7 cm)	13.78 mil (0.35 mm)	Polypropylene
TT8001RED82R	82' x 5" (25 m x 12.7 cm)	13.78 mil (0.35 mm)	Polypropylene

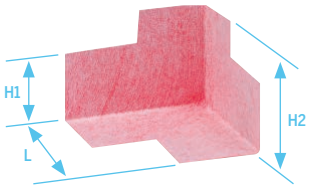
Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA CORNER®

PROVA CORNER® — Pack Size: 4 pcs

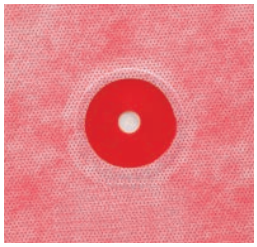


PROVA CORNER® is made from PROVA-MAT® waterproofing membrane and is used to seal and waterproof the inside/outside corners of a shower base and curb. The preformed corner design eliminates any seams. The corners also resist mold and mildew growth.



PART NO.	CORNER TYPE	SIZE (L x H1 x H2)	THICKNESS	MATERIAL
TT8003INSCR	Inside	4-1/2" x 2-1/4" x 3-1/2" (11.43 cm x 5.72 cm x 8.89 cm)	25.59 mil (0.65 mm)	Polypropylene
TT8003OUTCR	Outside	4-1/2" x 2-1/4" x 3-1/2" (11.43 cm x 5.72 cm x 8.89 cm)	25.59 mil (0.65 mm)	Polypropylene

PROVA PIPE SEAL®



PROVA PIPE SEAL® — Pack Size: 1 pc

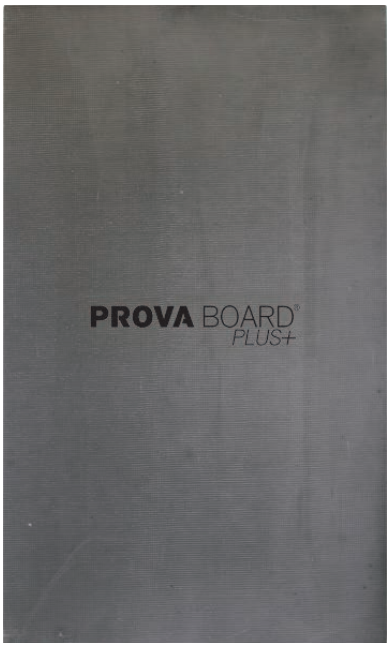
PROVA PIPE SEAL® is a prefabricated seal made of cut sections of PROVA-MAT® with a flexible collar designed to seal pipe protrusions. The pipe seal also resists mold and mildew growth.

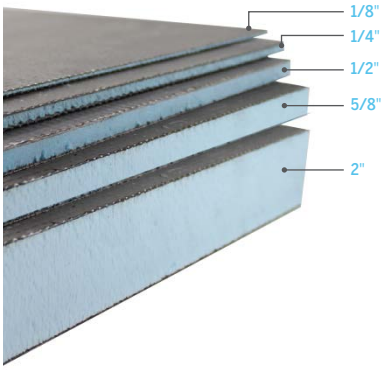
PART NO.	SIZE	THICKNESS	MATERIAL
TT8102REDPS	4-3/4" x 4-3/4" (12.07 cm x 12.07 cm), 7/16" (1.11 cm) opening	16.14 mil (0.41 mm)	Polypropylene

PROVA PIPE SEAL® - BULK — Pack Size: 10 pcs

PART NO.	SIZE	THICKNESS	MATERIAL
TT8102REDPSB	4-3/4" x 4-3/4" (12.07 cm x 12.07 cm), 7/16" (1.11 cm) opening	16.14 mil (0.41 mm)	Polypropylene

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.





PROVA BOARD® PLUS+

PROVA BOARD® PLUS

PROVA BOARD® PLUS is a lightweight, high-density tile backer board that is quick and easy to install. The 100% waterproof XPS (extruded polystyrene) core is resistant to vapor pressure and does not support mold growth. The XPS core is sandwiched between tightly woven mesh and layers of cementitious coating. Install with PROVA FASTENERS® and PROVA-SEAL™ to guarantee a watertight installation.

- Install on walls, countertops & fireplaces
- Great for tub surrounds, walk-in showers & building benches
- Offers support for large format tiles
- Non-deteriorating/non-rotting properties
- Highly durable & flame retardant

PART NO.	SIZE	THICKNESS	PACK SIZE	MATERIAL

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA BOARD PAN ASSEMBLY KIT®

PROVA BOARD PAN ASSEMBLY KIT® — Pack Size: 1 kit

PROVA BOARD PAN ASSEMBLY KIT® includes all the components required to build a watertight shower pan assembly using PROVA BOARD® PLUS tile backer*. The kit is perfect for new construction or projects where existing drywall or cement board needs to be replaced. Save time with this combination solution and rest assured that your shower assembly will last for years to come!

- Eliminates the two-step process of waterproofing membrane over cement board and/or drywall
- Modular PROVA PAN® inclusion provides flexibility in installation and replaces the need for a mortar base
- PROVA-MAT PAN LINER® component is ICC-ES approved

***PROVA BOARD® PLUS sold separately.**

PART NO.	SIZE	DRAIN PLACEMENT	DRAIN MATERIAL
PVBP8008ABS	48" x 48" (122 cm x 122 cm)	Center	ABS, includes 304 stainless steel grate
PVBP8013ABS	32" x 60" (81 cm x 152 cm)	Offset	ABS, includes 304 stainless steel grate

EACH PROVA BOARD PAN ASSEMBLY KIT® INCLUDES:

LABELS	DESCRIPTION	SPECS	QTY
A	PROVA PAN®	48" x 48" (122 cm x 122 cm) or 32" x 60" (81 cm x 152 cm)	1 pc
B	PROVA-MAT PAN LINER®	48" x 48" (122 cm x 122 cm) or 32" x 60" (81 cm x 152 cm)	1 pc
C	PROVA DRAIN®	ABS or PVC (304 stainless steel grate included)	1 pc
D	PROVA FASTENERS®	1-5/8" (4.1 cm) screws 1-1/4" (3.2 cm) washers	140 screws/washers
E	PROVA-SEAL™	9.5 oz (280 ml)	7 tubes

***PROVA BOARD® PLUS sold separately.**

48" x 48" (122 cm x 122 cm) Kit with ABS Drain, Center Placement

32" x 60" (81 cm x 152 cm) Kit with PVC Drain, Offset Placement

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

TT8801NCH24 TT8800NCH16 TT8800NCH33

PROVA NICHE®

PROVA NICHE® — Pack Size: 1 pc

PROVA NICHE® is a prefabricated niche made of PROVA BOARD® PLUS that can be used with PROVA-MAT® or PROVA BOARD® PLUS when installing a tiled shower. This useful, stylish accessory offers built-in utility for showers, bathrooms, and kitchen backsplashes. It also allows for more free and clear space for any and all necessities, such as shampoo bottles, soaps, spices, cooking utensils and more!

PART NO.	SIZE (OUTSIDE DIMENSIONS)	SIZE (INSIDE DIMENSIONS)	GLASS SHELF	MATERIAL

PROVA NICHE GLASS SHELF®

PROVA NICHE GLASS SHELF® — Pack Size: 5 pcs

Adjustable safety glass shelves for ultimate design flexibility and flair
- Easy to install & customize - position and trim shelves as desired
- Stylish - complements the interior décor of ANY bathroom
- Convenient & versatile - add shelves to an existing PROVA NICHE® or build your own niche with PROVA BOARD® PLUS
- Installation flexibility - Glass shelves can be trimmed to suit your needs

PART NO.	SIZE	THICKNESS	MATERIAL
TT8810GSS12	11-13/16" x 3-3/8" (30 cm x 8.6 cm)	3/8" (9.5 mm)	Laminated glass

Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA-SEAL™

PROVA-SEAL™ — Pack Size: 12 tubes/ctn

PROVA-SEAL™ is a 100% waterproof sealing and bonding compound. The sealant cures within one hour and even quicker in the presence of moisture or humidity. It creates a watertight, flexible seal that will not shrink, crack or crumble! PROVA-SEAL™ can be used to waterproof and seal pipe/valve protrusions in the PROVA-SHOWER SYSTEM® and is required for the installation of PROVA BOARD® PLUS. It is also great for sealing cracks, joints and seams around sinks, counters, hardboard and flashing, penetrations and more! Once applied, PROVA-SEAL™ can be painted in 30 minutes and exposed to water in one hour.

PART NO. (U.S)	VOLUME	MATERIAL
PBS10FLOZUS	9.5 fl. oz. (280 ml)	Premium hybrid silicone
PART NO. (CAN)	**VOLUME**	**MATERIAL**
PBS10FLOCDN	9.5 fl. oz. (280 ml)	Premium hybrid silicone

PROVA FASTENERS®

PROVA FASTENERS® — Pack Size: 1 ctn

PROVA FASTENERS® (screws and washers) offer a safe, simple and durable installation solution for PROVA BOARD® PLUS wall panels. They are used to fasten PROVA BOARD® PLUS panels to wood stud framing and other substrates suitable for screw connections.

***Screws and washers sold seperately.**

PART NO.	SIZE/CONTENTS	PCS/CTN
TT8019SCR03B	3" SCREWS To be used for installation of 2" thick PROVA BOARD® PLUS	200
TT8020SCR02B	1-5/8" SCREWS To be used for installation of 1/2", 5/8", 1/4" or 1/8" thick PROVA BOARD® PLUS	200
TT8021WSH01B	1-1/4" WASHERS To be used in conjunction with either size screw for all PROVA BOARD® PLUS installations	100
TT8022SCR02B	1-5/8" SCREWS To be used for installation of 1/2", 5/8", 1/4" or 1/8" thick PROVA BOARD® PLUS	1000

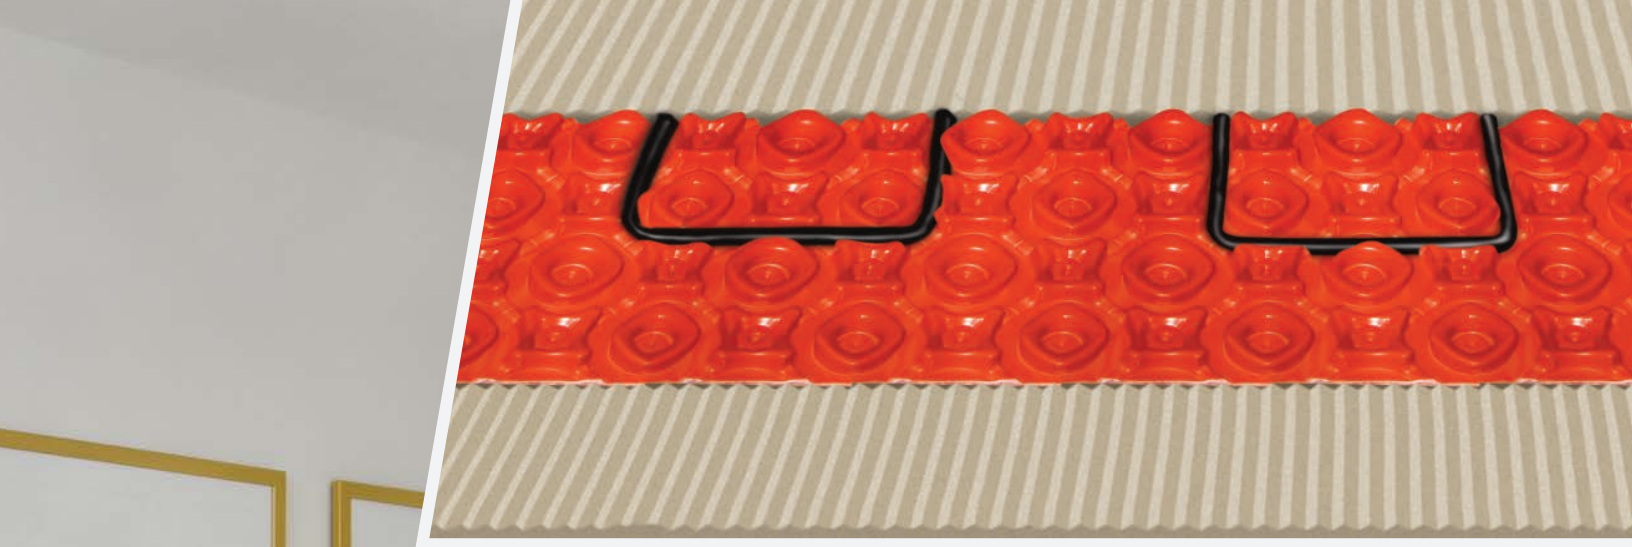
Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.



PROVA®

TILE UNDERLAYMENT SYSTEMS

PROVA® offers a variety of underlayment systems that provide protection and longevity of your tile installation. PROVA-FLEX®, PROVA FLEX-HEAT® and PROTEGGA® PLUS offer easy, efficient methods for protecting tiled floors. All membranes are lightweight and offer superior strength, enabling installers to easily produce a strong surface for tiling in wet or dry areas. Featuring crack isolation and uncoupling properties, PROVA® underlayment systems can be used on or below grade. The versatility of PROVA FLEX-HEAT® provides a great solution for heated tile installations and also enables the installer to match up to thicker flooring surface materials like 3/4" (1.9 cm) hardwood.

PROVA FLEX-HEAT+®

The ultimate versatility in tile underlayment

PROVA FLEX-HEAT® (ROLL) — Pack Size: 1 roll

PROVA FLEX-HEAT® is a lightweight uncoupling membrane with heating cable capabilities. The membrane features deep grooves with locking channels that are suitable for multiple thicknesses of heating cables. Patented **Shear Stress Control®** system with non-woven anchoring fleece neutralizes stress caused by movement in the substrate.

Versatile Heating Cable Compatibility:
Can be used with multiple wire sizes of up to 0.2" (5 mm) thick.

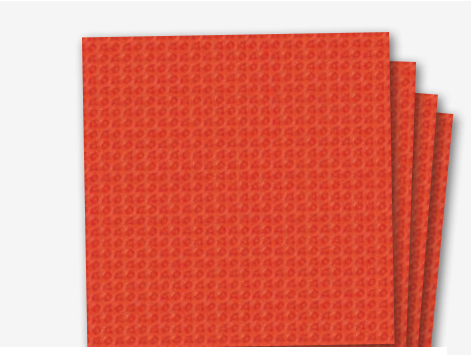
Achieve 3" (7.6 cm) Cable Spacing:
Provides most efficient heat distribution as per wire manufacturer specifications.

0.26" (6.5 mm) thick membrane:
Can be used without heating cables for matching up to higher floors to achieve a level transition.

Vapor Management System:
Open-air channels beneath the fleece layer provides a path for moisture to dissipate. Well suited for below-grade installations.

Achieved an EXTRA HEAVY Performance Rating When Tested to ASTM C627.

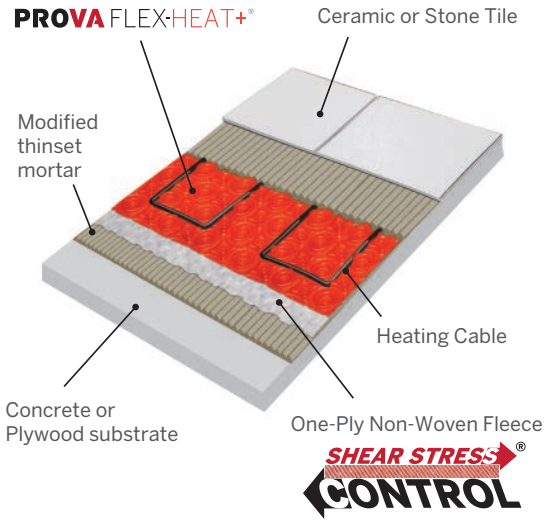
PART NO.	SIZE	COVERAGE AREA	THICKNESS	QTY/PALLET
TT8006RED05	3.28' x 16.40' (1 m x 5 m)	54 sq. ft. (5 sq. m)	0.26" (6.5 mm)	16 rolls
TT8006RED15	3.28' x 49.21' (1 m x 15 m)	161 sq. ft. (15 sq. m)	0.26" (6.5 mm)	9 rolls



PROVA FLEX-HEAT® (SHEETS) — Pack Size: 10 pcs/box

PROVA FLEX-HEAT® pre-cut for easy handling and versatility. Perfect for numerous projects.

PART NO.	SIZE	COVERAGE AREA	THICKNESS	QTY/PALLET
TT8006RED10	38.75" x 37.25" (0.98 m x 0.95 m)	10 sq. ft. (0.93 sq. m)	0.26" (6.5 mm)	25 boxes



Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

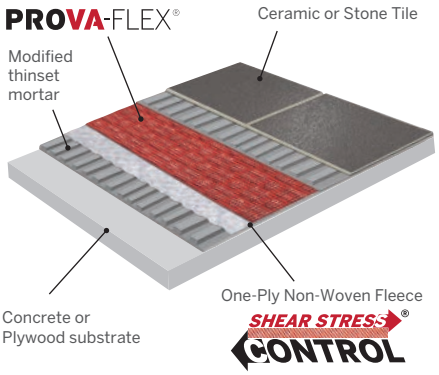
PROVA-FLEX®

PROVA FLEX® — Pack Size: 1 roll

PROVA-FLEX® is a durable, lightweight tile underlayment that provides crack isolation protection on cement slabs and is an easy-to-install, labor-saving alternative to backer board on wood substrates. The underlayment features a patented **Shear Stress Control®** system with non-woven anchoring fleece to neutralize stress caused by movement in the substrate. With its lightweight functionality and the top scrim layer that provides the ultimate locking mechanism for mortar, you can fill the studs with mortar in just one pass of your trowel and get the job done even faster!

Achieved an EXTRA HEAVY Performance Rating When Tested to ASTM C627.

PART NO.	SIZE	COVERAGE AREA	THICKNESS	QTY/PALLET
TT8004RED05	3.28' x 16.40' (1 m x 5 m)	54 sq. ft. (5 sq. m)	0.16" (4 mm)	25 rolls
TT8004RED82R	3.28' x 82.02' (1 m x 25 m)	269 sq. ft. (25 sq. m)	0.16" (4 mm)	9 rolls



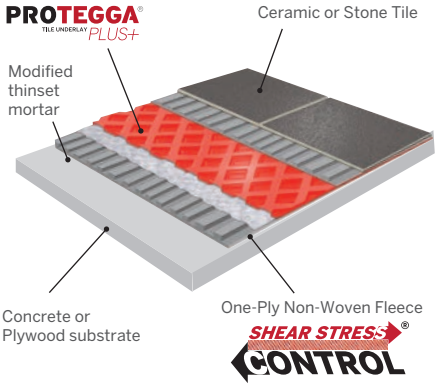
PROTEGGA® TILE UNDERLAY PLUS+

PROTEGGA® PLUS — Pack Size: 1 roll

PROTEGGA® PLUS is a durable, lightweight tile underlayment that provides crack isolation protection on cement slabs and is an easy-to-install, labor saving alternative to backer board on wood substrates. The underlayment features a patented **Shear Stress Control®** system with non-woven anchoring fleece to neutralize stress caused by movement in the substrate. The exclusive waterproofing and vapour management system provides open-air channels on the underside to allow moisture to dissipate.

Achieved an EXTRA HEAVY Performance Rating When Tested to ASTM C627.
Exclusive for Canada.

PART NO.	SIZE	COVERAGE AREA	THICKNESS	QTY/PALLET
TT8000RED82R	3.28' x 82.02' (1 m x 25 m)	269 sq. ft. (25 sq. m)	0.16" (4 mm)	9 rolls



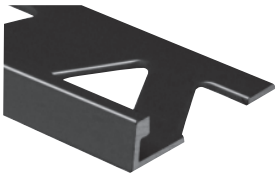
Note: PROVA® products are to be installed using premium polymer-modified thinset mortar only. Premixed mortar or mastic are not to be used. Installations completed with polymer-modified thinset mortar that meets the most current version of the ANSI A118.15 standard may qualify for a limited lifetime warranty. Refer to the warranty summary page on page 55, installation instructions and technical data sheets for complete product information & appropriate application conditions.

PROVA TILE EDGE®

TILE TRIM, NOSING & PROFILES

PROVA TILE EDGE® by M-D PRO offers a precise selection of the most popular profiles and finishes for both commercial and residential building projects. These profiles and finishes are among the most widely used and selected by installers, designers and architects in the industry.

With over 60 years of manufacturing aluminum and vinyl extrusions in North America, M-D PRO and the PROVA TILE EDGE® series are able to cover a broad spectrum of installation challenges with high quality, industry-approved products. The vast array of finishes and quick solutions provide assurance that no matter what the scope of the job, it will always be finished off just right with PROVA TILE EDGE®.



ADA Denotes ADA-compliant profiles

FLAT TILE EDGE

Pack Size: 25 pcs

Flat Tile Edge protects tile from damage while providing a finished butting edge for other flooring materials. Prevents tiles from chipping and is pre-punched for easy setting into mortar.

8 ft. lengths also available in Contour (Flex) style
See page 33 for more details

STAINLESS STEEL TILE EDGE

The solid 304 stainless steel tile trims and corners offered within the PROVA TILE EDGE® program provide strength and durability for numerous applications without sacrificing style or finishing flare with a subtly brushed finish. Stainless steel trims are typically selected for more challenging applications where aluminum just won't do the trick. Exterior, wet and/or sanitary enviornments most commonly call for stainless steel due to the unique rust-resistant and inert properties of this material.

FLAT TILE EDGE

Pack Size: 5 pcs

Stainless Steel Flat Tile Edge protects tile from damage while providing a finished butting edge for other flooring materials. Made of solid stainless steel for wet areas, outdoor and commercial applications. Prevents tiles from chipping and is pre-punched for easy setting into mortar.

LENGTH: 8 ft. (2.4 m)	FINISH/PART NO.

ROUND CORNERS

Pack Size: 5 pcs

Stainless Steel Round Inside and Outside Corner accessories used to finish and protect tile edges and join two pieces of round tile edge at a 90° angle.

BULK		FINISH/PART NO.
Height (H)	Application	Stainless Steel (STS)
3/8" (10 mm)	Outside	CM2241STSORC
1/2" (12.5 mm)	Outside	CM2242STSORC
3/8" (10 mm)	Inside	CM2241STSIRC
1/2" (12.5 mm)	Inside	CM2242STSIRC

PACKAGED		FINISH/PART NO.
Height (H)	Application	Stainless Steel (STS)
3/8" (10 mm)	Outside	ET2241STSORC
1/2" (12.5 mm)	Outside	ET2242STSORC
3/8" (10 mm)	Inside	ET2241STSIRC
1/2" (12.5 mm)	Inside	ET2242STSIRC

Notes: Colours may not appear exactly as shown. Please request sample prior to placing an order. Additionally, due to the corrosive and caustic nature of certain ingredients in many grouts, it is imperative that any residue be immediately removed from the surface of the trim to prevent discoloration.

SQUARE TILE EDGE

Pack Size: 5 pcs

Stainless Steel Square Tile Edge provides a sleek, contemporary look to finish and protect the outer edge of exposed tile. Can be used on walls, floors, countertops, and backsplashes. This profile can also be used as an accent with feature strip or listello border. Prevents tiles from chipping and is pre-punched for easy setting into mortar.

LENGTH: 8 ft. (2.4 m)	FINISH/PART NO.
Height (H)	Stainless Steel (STS)
3/8" (10 mm)	CM2341STS08
1/2" (12.5 mm)	CM2342STS08

SQUARE CORNERS

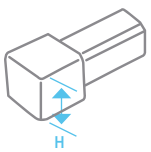
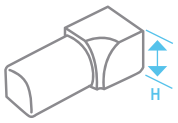
OUTSIDE CORNER

INSIDE CORNER

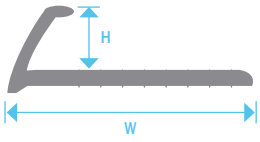




Notes: Colours may not appear exactly as shown. Please request sample prior to placing an order. Additionally, due to the corrosive and caustic nature of certain ingredients in many grouts, it is imperative that any residue be immediately removed from the surface of the trim to prevent discoloration.

PVC TILE EDGE

PVC tile edge is ideal for finishing tiled surfaces, due to its durability, versatility, and great value. The PVC line of PROVA TILE EDGE profiles cut easily, protect tile from chipping, and provide functional finishing for tiled surfaces. The heavy-duty profiles can also be used on floors to protect tiles exposed to foot traffic. PVC tile edge is resistant to weather, UV rays, and most household cleaning products, making them a great option for your next project.



VINYL TILE EDGE

Pack Size: 50 pcs

Vinyl (PVC) Tile Edge is great for use around bathtubs, windows, backsplahes and more. Can also be used to eliminate mitering of tiles at corners, such as in step-up tubs. Pre-punched for easy setting into mortar.

LENGTH: 8 ft. (2.4 m)		RIGID VINYL COLORS/PART NO.		
Height (H)	**Width (W)**	**Beige (BGE)**	**Black (BLK)**	**Bone (BON)**

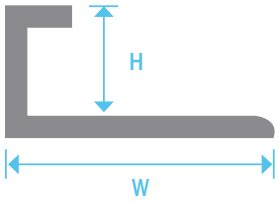
Notes: Colours may not appear exactly as shown. Please request sample prior to placing an order. Additionally, due to the corrosive and caustic nature of certain ingredients in many grouts, it is imperative that any residue be immediately removed from the surface of the trim to prevent discoloration.

VINYL J CAP

Pack Size: 50 pcs

Vinyl (PVC) J-Cap can be used as a tile edge around bathtubs, windows, backsplashes, and more.

LENGTH: 8 ft. (2.4 m)		RIGID VINYL COLORS/PART NO.	
Height (H)	Width (W)	BONE (BON)	White (WHT)
3/16" (4.5 mm)	5/8" (16 mm)	CT1024BON08	CT1024WHT08
1/4" (6 mm)	3/4" (19 mm)	CT1025BON08	CT1025WHT08
3/8" (10 mm)	3/4" (19 mm)	CT1026BON08	CT1025WHT08



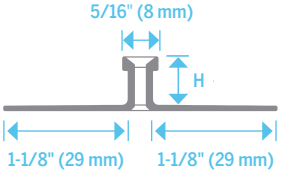
EXPANSION JOINT

Pack Size: 25 pcs

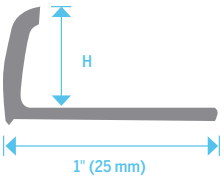
Co-extruded from rigid and flexible PVC, the Expansion Joint profile is perfect for use in tiled floor applications where flexibility is required to account for substrate movement. Ideal for use in light-duty commercial applications to protect tile from cracking. Resistant to weather, UV rays, and most household cleaning products.

Also available in Aluminum on page 46.

LENGTH: 8 ft. (2.4 m)	VINYL INSERT COLORS/PART NO.
Height (H)	Grey (GRY)
3/8" (10 mm)	CM3071GRY08
1/2" (12.5 mm)	CM3072GRY08



Notes: Colours may not appear exactly as shown. Please request sample prior to placing an order. Additionally, due to the corrosive and caustic nature of certain ingredients in many grouts, it is imperative that any residue be immediately removed from the surface of the trim to prevent discoloration.



HEAVY-DUTY VINYL EDGE - FLAT

Pack Size: 50 pcs

Flat Heavy-Duty Vinyl Tile Edge is great for use around bathtubs, windows, backsplahes and more. This flat, durable profile can be used on floor tile where thinner products may not stand up to heavy traffic. Pre-punched for easy setting into mortar.

LENGTH: 8 ft. (2.4 m)	RIGID VINYL COLORS/PART NO.	
Height (H)	**Beige (BGE)**	**Black (BLK)**
1/4" (6 mm)	CT1076BGE08	CT1076BLK08
5/16" (8 mm)	CT1078BGE08	CT1078BLK08
3/8" (10 mm)	CT1080BGE08	CT1080BLK08
Height (H)	**Bone (BON)**	**Grey (GRY)**
1/4" (6 mm)	CT1076BON08	CT1076GRY08
5/16" (8 mm)	CT1078BON08	CT1078GRY08

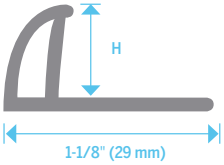
Height (H)	**White (WHT)**	
1/4" (6 mm)	CT1076WHT08	
5/16" (8 mm)	CT1078WHT08	
3/8" (10 mm)	CT1080WHT08	



HEAVY DUTY VINYL EDGE - ROUND

Pack Size: 10 pcs

Round Heavy-Duty Vinyl Tile Edge is great for use around bathtubs, windows, backsplahes and more. This round, durable profile can be used on floor tile where thinner products may not stand up to heavy traffic. Pre-punched for easy setting into mortar.

LENGTH: 8 ft. (2.4 m)	RIGID VINYL COLORS/PART NO.		
Height (H)	**Beige (BGE)**	**Black (BLK)**	**Bone (BON)**
5/16" (8 mm)	CT1058BGE08	CT1058BLK08	CT1058BON08
3/8" (10 mm)	CT1090BGE08	CT1090BLK08	CT1090BON08
Height (H)	**Grey (GRY)**	**White (WHT)**	
5/16" (8 mm)	CT1058GRY08	CT1058WHT08	
3/8" (10 mm)	CT1090GRY08	CT1090WHT08	

Notes: Colours may not appear exactly as shown. Please request sample prior to placing an order. Additionally, due to the corrosive and caustic nature of certain ingredients in many grouts, it is imperative that any residue be immediately removed from the surface of the trim to prevent discoloration.

HEAVY-DUTY VINYL EDGE - ROUND CORNERS

Pack Size: 10 pcs

Round inside and outside corner accessories are used to finish and protect edges of tile and join two pieces of round tile edge at a 90° angle.

***Notes:** Colours may not appear exactly as shown. Please request sample prior to placing an order. Additionally, due to the corrosive and caustic nature of certain ingredients in many grouts, it is imperative that any residue be immediately removed from the surface of the trim to prevent discoloration.

****Disclaimer:** DO NOT USE MILL FINISH IN WET AREAS. MILL product is aluminum in its raw state, therefore there is a high risk of oxidization on the product and staining on the tile and/or grout when it is used in wet areas.

PROVA® WARRANTIES

PROVA® Tile Installation and Waterproofing Product Warranties provide a simple and efficient method for securing warranty coverage on all your PROVA® purchases. Our straightforward eligibility requirements and transparent conditions ensure the peace of mind you expect from a warranty without the overcomplicated warranty language.

Warranty Overview

Find the right PROVA® Tile Installation and Waterproofing product warranty for your purchase below.
PROVA® offers both variable term and lifetime warranties, each offering several advantages that set them apart.

The PROVA® Limited Product Warranty:

- Applies to manufacturing defects found on standalone PROVA® products
- Allows for the use of any ANSI A118.4 premium polymer-modified thinset mortar
- Assures competitive coverage for standalone PROVA® products in variable term lengths

The PROVA® Limited Lifetime Installation Warranty:

- Applies to a variety of product systems: PROVA-SHOWER® system, PROVA® Underlayment system, PROVA-MAT® system, or PROVA BOARD® PLUS system
- Allows for the use of any ANSI A118.15 premium polymer-modified thinset mortar
- Encourages installers to take full advantage of flexible, comprehensive PROVA® product systems with the confidence that their installation will last a lifetime

PROVA® Tile Installation and Waterproofing Products Limited Warranties

PROVA® Limited Warranty	Warranty Type	Warranty Duration
PROVA® Tile intallation Products	Lifetime Installation Warranty	Lifetime
PROVA® Waterproofing and Shower Products	Product Warranty	10 years
PROVA TILE EDGE®	Product Warranty	5 years
PROVA® Underlayment Products	Product Warranty	50 years

Warranty Registration Information and Exclusions

Registering your PROVA® products for warranty coverage is a simple, two-step process:

1. Purchase qualifying products.
2. Complete the appropriate registration form for your products – which can be found at **www.mdpro.com/prova/warranty** - within 60 days of the date of purchase. Please note that this is required to qualify for the PROVA® Tile Installation Products Limited Lifetime Warranty and encouraged for all product warranties.

Warranty Claim Information and Exclusions

To file a claim for qualifying PROVA® products and systems, simply complete the appropriate warranty claim document – which can be found at **www.mdpro.com/prova/warranty** - within 30 days of the alleged manufacturing defect presenting itself.

For full warranty details and exclusions, please review the warranty documents that came included with your products or visit our website at **www.mdpro.com/prova/warranty**.
